DREHER TOMKIES SCHEIDERER LLP

Particular Areas of Expertise

Multistate Consumer Financing Programs

Dreher Tomkies Scheiderer LLP has developed a substantial body of knowledge and resource materials with respect to consumer and retail financing programs offered by financial institutions nationwide. For example, our lawyers routinely advise credit card issuers operating nationwide credit card programs in all states. We also assist banks, finance companies, savings and loans, and mortgage bankers in offering consumer loans, first and second mortgage loans, automobile and recreational vehicle loans, retail installment financing, student loans, and other products to residents of states where the creditor is not located, including programs designed for use in multiple jurisdictions.

Dreher Tomkies Scheiderer LLP can help clients save fees for legal services in several ways:

- ◆ Because our lawyers have substantial experience in this area, clients do not pay for lawyers to learn "on-the-job";
- ◆ Because our lawyers have substantial resource materials on state lending laws (statutes, regulations and key judicial precedents), clients do not pay for basic research for lawyers to find and understand the relevant law;
- ◆ Because our lawyers have engaged in numerous 50-state projects for clients, we may have off-the-shelf products to fit clients' needs; and
- ◆ Because Dreher Tomkies Scheiderer LLP is willing to apply its expertise to the laws of all the states, clients are usually able to avoid much of the inconvenience and cost of engaging local counsel in each state.

We stay current on law changes affecting consumer financial services in all states, thereby enabling us to keep clients apprised of developments affecting existing consumer financing programs.

We can usually quote prices for work in the multistate consumer finance area that are a fraction of those of other firms.

DREHER TOMKIES SCHEIDERER LLP

Particular Areas of Expertise

Strategic Planning for Centralization of Consumer Lending Operations

Dreher Tomkies Scheiderer LLP lawyers have substantial experience in assisting bank holding companies and diversified financial services companies in rationalizing and consolidating their diverse consumer lending operations. We advise their affiliates regarding a number of planning issues, such as:

- ◆ What type of institution should operate the particular loan program (*e.g.*, national bank, federally insured state bank or savings association, federally chartered savings association, credit card bank, federally insured industrial loan company) to maximize strategic opportunities?
- ◆ Should an existing or newly-chartered or acquired institution operate the program?
- ◆ In what state should the selected institution (and its processing facilities) be located?
- ◆ What should be done, particularly in programs in which non-bank affiliates or third parties are involved, to ensure that the financial institution will be deemed the "true creditor" and thus will retain its exportation and most favored lender rights?
- ◆ How should the consolidation of operations be structured to minimize affiliate transactions, tying, and other concerns that arise in asset transfers among affiliates?
- ◆ What actions are necessary to convert programs from the selling institution's terms to the acquiring institution's terms (*e.g.*, notices, form changes)?

Among the key concerns in the consolidation of several affiliates' loan programs are (i) cross-marketing issues; (ii) sharing of credit information among affiliates under the Fair Credit Reporting Act; (iii) interstate banking limitations; (iv) branching issues; (v) restrictions on management interlocks under the Depository Institution Management Interlocks Act; (vi) activity limits on limited-purpose institutions such as credit card banks; (vii) funding alternatives (*e.g.*, securitization, participation, jumbo deposits); (viii) securing the necessary regulatory approvals; (ix) making loans to corporate insiders and employees; and (x) collecting debts owed to the institution or its affiliates.

Dreher Tomkies Scheiderer LLP lawyers have worked with various types of clients in devising innovative and practical solutions to these and other concerns. Our broad expertise in financial institutions and consumer finance regulation, mergers and acquisitions and other matters enables us to handle consolidations of multi-institution consumer lending programs in an organized, cost-effective manner.

DREHER TOMKIES SCHEIDERER LLP

Particular Areas of Expertise

Multistate Debt Collection Compliance

Dreher Tomkies Scheiderer LLP lawyers have developed a substantial body of knowledge and resource materials with respect to multistate commercial and consumer debt collection. We advise creditors and third-party collectors regarding state licensing requirements, state and federal regulation of practices and procedures, and general compliance with state, certain municipal, and federal laws governing fair debt collection practices, unfair and deceptive trade practices, collection agency licensing and bonding, telephone monitoring and recording, automated dialing and announcing devices, other consumer protection, and criminal statutes and ordinances. These lawyers also assist various types of organizations in strategic planning, corporate policy development and review, training, mergers and acquisitions, forms and letters development and review, and regulatory counseling.

Dreher Tomkies Scheiderer LLP's knowledge base in multistate debt collection enables its clients to obtain maximum value for legal services purchased in several ways:

- ◆ Because Dreher Tomkies Scheiderer LLP lawyers have substantial experience in this area, clients do not pay for lawyers to learn "on-the-job" and can benefit from Dreher Tomkies Scheiderer LLP's prior experience in dealing with state regulators on many issues;
- ◆ Because Dreher Tomkies Scheiderer LLP lawyers have substantial resource materials on state debt collection licensing and regulation laws (statutes, regulations and key judicial precedents), clients do not pay for basic research for lawyers to find and understand relevant law;
- ◆ Because Dreher Tomkies Scheiderer LLP lawyers have engaged in numerous 50-state projects for clients, they have many off-the-shelf materials to fit clients' needs; and
- ◆ Because Dreher Tomkies Scheiderer LLP lawyers are willing to apply their expertise to the laws of all the states, clients are usually able to avoid much of the inconvenience and cost of engaging local counsel in each state and form a coherent and consistent national compliance strategy.

Dreher Tomkies Scheiderer LLP lawyers also stay current on law changes affecting debt collection and licensing in all states, thereby enabling them to keep clients apprised of developments affecting existing debt collection programs.

Special issues in this area include collecting for affiliates, servicing (which may include certain collection related services), coordination of employee/agency licensing, attorney-signed and computer-generated letters, collection service agreements, and corporate organization.

DREHER TOMKIES SCHEIDERER LLP

Particular Areas of Expertise

Multistate Creditor Representation in Bankruptcy

Dreher Tomkies Scheiderer LLP has developed a network of associated counsel in various states in order to represent creditors in consumer bankruptcy proceedings on a multistate basis. The Firm prepares all pleadings and attends local hearings, while hearings out of town are attended by associated counsel. The associated counsel reports to the Firm, which in turn reports directly to the client. In this manner, the client is able to hire a single firm to handle consumer bankruptcy proceedings, for a single flat fee, on a multistate basis. Due to economies of scale, the Firm is able to represent creditors at substantially lower cost than competing firms. We offer to perform the following activities on a fixed fee basis: (i) relief from stay, (ii) objections to confirmation, (iii) reaffirmation agreements, (iv) keeper agreements, and (v) adequate protection agreements. We also offer our services on a per file fixed fee basis wherein we will oversee the bankruptcy proceeding from the initial filing to eventual dismissal or discharge for a single price. Dreher Tomkies Scheiderer LLP also provides advice as to the formation of company policies for dealing with consumer bankruptcy proceedings and the Firm is available to perform in-house seminars to business personnel on dealing with consumer bankruptcy proceedings.

Dreher Tomkies Scheiderer LLP's representation in consumer bankruptcy proceedings allows clients to obtain maximum results in several ways:

- ◆ Because Dreher Tomkies Scheiderer LLP lawyers have substantial experience in this area, the Firm is able to offer pricing on creditor representation in consumer bankruptcy proceedings substantially below that charged by competing firms;
- ◆ Because Dreher Tomkies Scheiderer LLP has established a network of local counsel in various states, the Firm is able to provide fixed fee pricing for several standard motions on a multistate basis. This allows the client to retain a single firm to oversee bankruptcy proceedings in various states for a single price, thereby avoiding duplicative work, inconvenience and cost associated with hiring local counsel for each jurisdiction in each state;
- ◆ Because of the Firm's technological support, as an alternative to written reports on the status of a bankruptcy proceeding, we are able to report to clients on a variety of levels, from e-mail to actually accessing a client's computer program to input the current status of the bankruptcy proceeding;
- ◆ Because Dreher Tomkies Scheiderer LLP lawyers offer in-house seminars and training directed to business personnel on handling consumer bankruptcy proceedings and collections, clients can evaluate and improve their in-house processing of bankruptcy filings; and
- ◆ Because Dreher Tomkies Scheiderer LLP lawyers have substantial knowledge of bankruptcy issues on a multistate basis, the Firm is able to advise clients as to implementation of nationwide company policies regarding bankruptcy related issues such as the terms and execution of reaffirmation agreements, extensions of credit, foreclosure of collateral, etc.

DREHER TOMKIES SCHEIDERER LLP

Multistate Digests Of Relevant State Laws

Dreher Tomkies Scheiderer LLP is pleased to offer a series of cost-effective program development and on-going compliance products that bring together the relevant laws of multiple jurisdictions into organized, standardized, easy-to-use resources, or “*Digests*.” Each *Digest* addresses a different legal topic or loan product, *e.g.*, credit cards, debt collection practices, financial privacy or mortgage lending. Within each *Digest*, relevant statutes and regulations (and in some cases attorney general opinions and case law decisions) are summarized or quoted with respect to a series of topics or questions. Citations pinpoint the source for each response for ease of reference or further consideration. The *Digests* seek to present a consistent approach to statutory construction and legal interpretation across multiple jurisdictions. The standardized *Digest* formats facilitate the quick location of answers to particular questions, even under very different statutory schemes. The topics and questions in each *Digest* are not necessarily exhaustive, but have been chosen for their broad appeal. We are happy to supplement the *Digests* with additional questions tailored for individual clients and to take suggestions for topics that might be added to a particular *Digest* in the future.

The *Digests* are made available in notebook form with each of the states’ laws and regulations presented in identical format for ease of review of the same issues in multiple jurisdictions. The *Digests* also are available in many word processing. This allows the *Digests* to be searched by word, by topic, by state, etc.

We keep the *Digests* current as changes come to our attention throughout the year by forwarding page changes and replacement disks to each client subscriber. In addition, each year we do a complete cite check on the *Digests* to ensure that nothing has been missed in the preceding year.

Three *Digests* currently are available:

- ◆ *Credit Card Digest* — a compilation of relevant state consumer credit card and related laws applicable to out-of-state national banks, federally insured state-chartered banks and industrial loan companies.
- ◆ *Debt Collection Digest* — a compilation of state and federal laws governing debt collection practices, along with monitoring and recording statutes and automated dialing and announcing devices statutes, as such statutes apply to debt collection, plus a summary of selected requirements under state and local licensing, bond and tax statutes.
- ◆ *Marketing and Privacy Digest* — a compilation of state laws governing financial privacy, fair credit reporting, telemarketing/automatic dialing and announcing devices, telephone monitoring and recording, electronic signatures and restrictions on the use of social security numbers by lenders and creditors.
- ◆ *Other Digests* We have a substantial body of knowledge with respect to consumer and retail financing programs offered by financial institutions, credit providers and insurers nationwide. Over the years we have developed an extensive database of material on all aspects of banking and consumer financial services on an individual state and nationwide basis. We also maintain a complete library of selected volumes relevant to consumer financial services from all 50 states and the District of Columbia.

We can prepare multistate law digests on many other types of loan and credit sale products (*e.g.*, credit and charge cards, first mortgage loans, home equity loans, motor vehicle loans, boat loans, mobile home and manufactured housing financing, non-filing insurance, credit insurance, debt cancellation, recreational vehicle (RV) loans, student loans, consumer and commercial usury, automated teller machines (ATMs), revolving sales finance, and closed-end installment sales finance) as well as on deposit and other non-credit products.
